

PRODUCT ALLERGY INFORMATION

It is our priority is to ensure our customers with food allergies and intolerances have accurate information to make safe choices from our menu. Where any of the 14 specified allergens are present, we will tell you. When one of our suppliers reports they have identified a risk cross contamination in their production line we will tell you the product 'may contain' an allergen.

Please note however that we cannot guarantee the absence of any allergen. Some of our manufacturers produce products containing allergens at their sites, therefore due to possible cross contamination risk we cannot declare that our products are free from dairy, nuts or any of the other 14 allergens.

As we use shared equipment in a busy environment, some products may not be suitable for those with severe allergies. Our menu constantly changes; please advise a staff member every time you visit as we may be using substituted ingredients. This is correct as of October 2021 & is subject to change without notice.

Key: Contains = contains allergen, M/C = may contain allergen
 Cereals** = contain wheat, gluten, oats, rye or barley
 Dairy** = contains milk and milk products
